

Subject: Final Environmental Impact Report Public Review and Meeting

The Nevada Irrigation District (District) as the Lead Agency has prepared a Final Environmental Impact Report (FEIR) for the Bear River Sediment Removal at Rollins Reservoir Project. The District has responded to public comment on the Draft Environmental Impact Report that was submitted for public review (June 11, 2015 to July 27, 2015).

The project description, location, and the potential environmental factors potentially affected by the proposed project, and responses to public comment are included in the FEIR, which is available for public review starting November 23, 2015 at the District office (1036 West Main Street, Grass Valley), the Madelyn Helling Library (980 Helling Way, Nevada City), Placer County Library - Colfax Branch (10 Church Street, Colfax), or online at

A public hearing is scheduled before the Board of Directors of the Nevada Irrigation District at 9:00 am., or soon thereafter, on December 9, 2015 at the District Main Office, at 1036 West Main Street, Grass Valley, CA 95945. At that time, the board will consider input from the public on the FEIR and related documents.

In addition, written comments received by the District prior to the hearing, will be considered at the hearing. Please provide name and contact information with any comments submitted, mailed or delivered to:

Lisa Tassone, Board Secretary
Nevada Irrigation District
1036 West Main Street
Grass Valley, CA 95945-1019
