

# Nevada Irrigation District Redistricting 2021

October 21, 2021

# What is Redistricting?

Redistricting is at its core the act of equalizing population among districts.

This is important in order to meet two requirements - one constitutional, one from Supreme Court precedent:

- *Equal Representation (14<sup>th</sup> Amendment)* - how effective any resident can be at advocating for themselves or being represented within a jurisdiction.
- *One Person One Vote* - equal ability to elect a candidate of choice.

# What is Redistricting?

Redistricting has changed significantly over the years as federal and state laws, norms, best practices, and public opinion has transformed.

## In Public Opinion / Media:

- 97% of Voters agree that “local government should be required to have transparent / open redistricting.”
- Media and Community Based Organizations have become much more adept at covering redistricting.

# Traditional Redistricting Principles

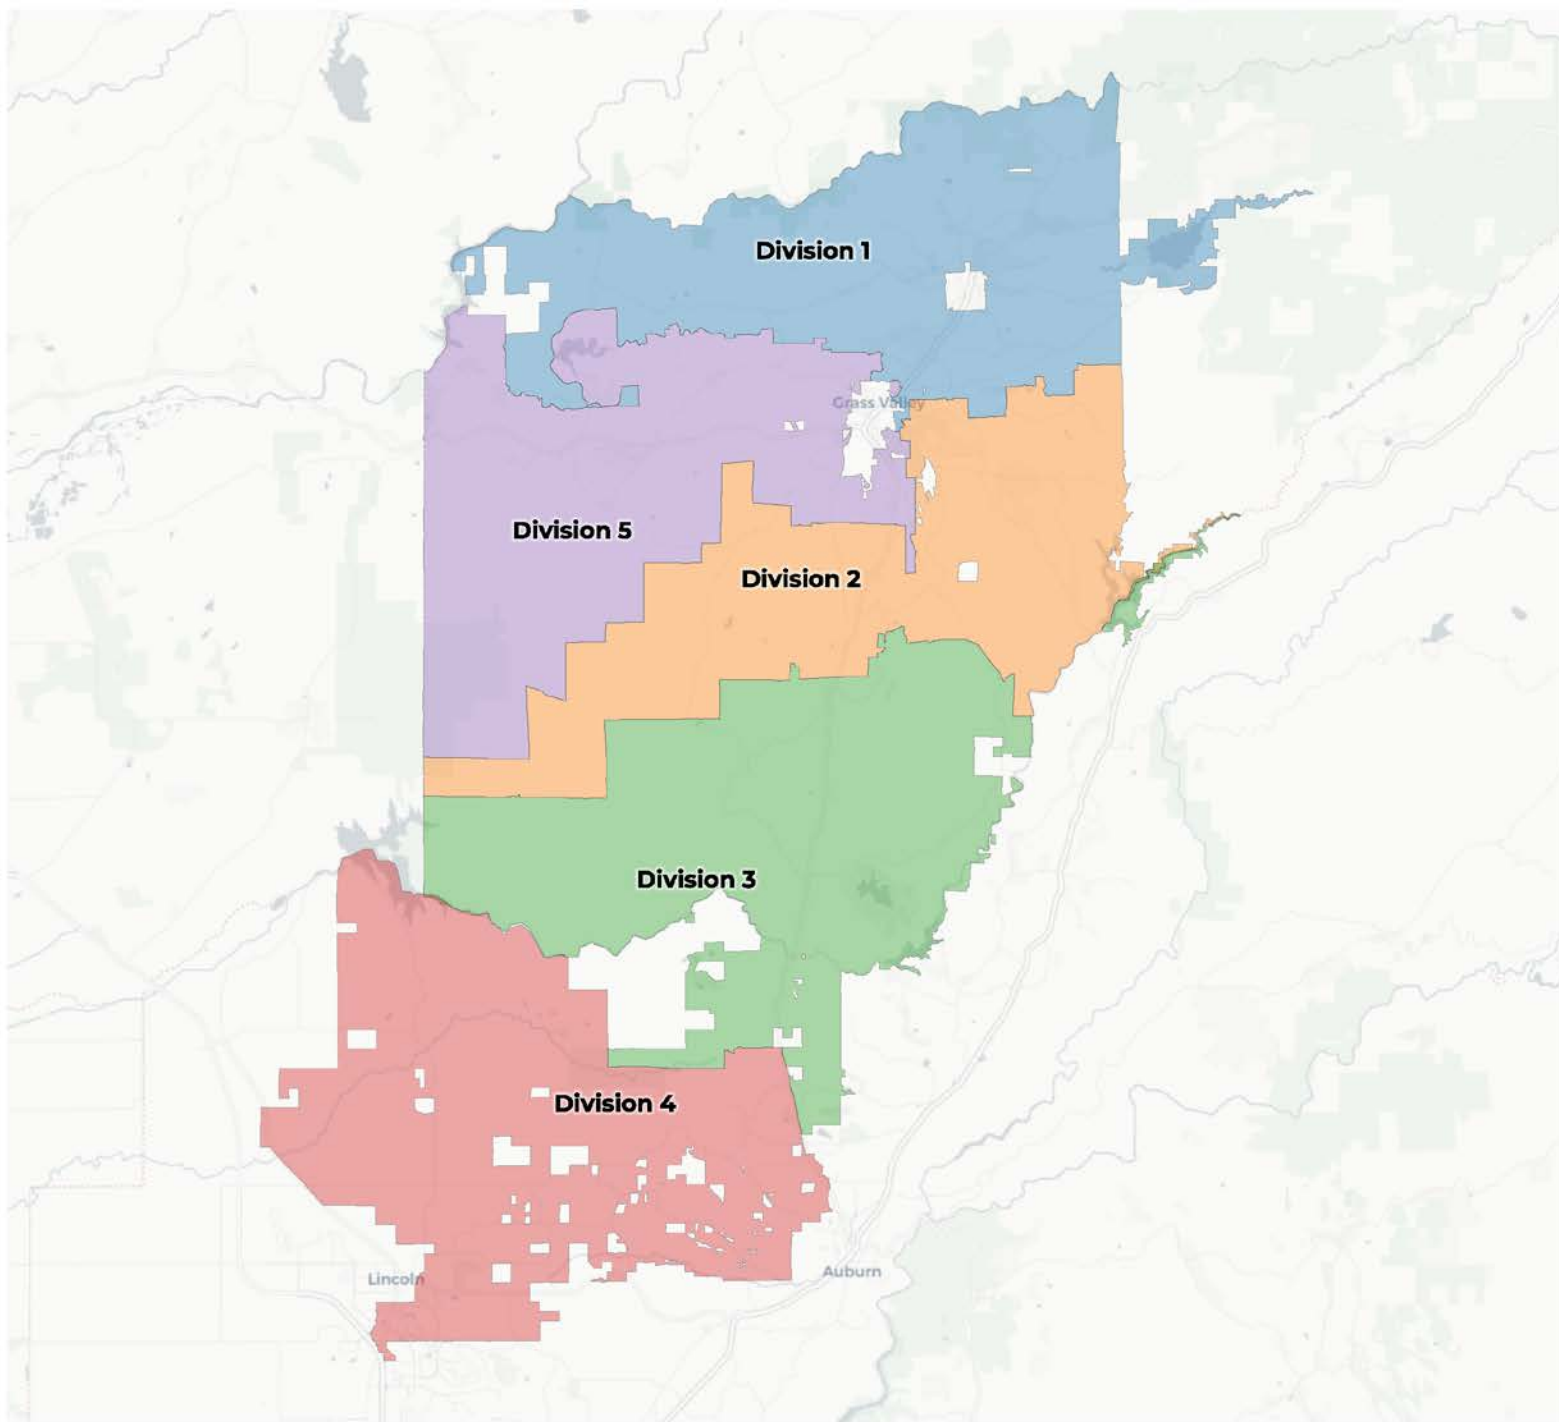

Preventing a Districting from becoming a Gerrymander

There are a number of criteria that have been used nationally and upheld by courts.

- Relatively equal size - people, not citizens
- Contiguous – districts should not hop/jump
- Maintain “*communities of interest*”
- Follow city and census designated place boundaries
- Keep districts compact – appearance/function

## Nevada Irrigation District's Redistricting Timeline

October 2021	Introduction to Redistricting & Current Data
January 2022	Draft Maps Presentation
February 2022	Draft Maps Revision
March 2022	Final Vote on Maps
