

# Staff Report

for the Regular Meeting of the Board of Directors, September 14, 2016

**TO:** Board of Directors

**FROM:** Brian J. Powell, P.E., Maintenance Manager

**DATE:** September 7, 2016

**SUBJECT:** Purchase of a Truck and Transfer Set - RFQ Inquiry No. 884

---

***MAINTENANCE***

**RECOMMENDATION:**

Approve the purchase of a Kenworth T800 Truck and Transfer Set from NorCal Kenworth in the amount of \$211,524.80, and authorize the General Manager to execute the necessary documents.

**BACKGROUND:**

The Maintenance Department had originally budgeted for a new 10 yard dump truck in the 2016 budget for the Service crew. There was a discussion with the General Manager about whether another dump truck was necessary or if the District would benefit more from the purchase of a truck and transfer setup. The truck and transfer set essentially doubles the carrying capacity of a standard 10 year dump truck and would give the Maintenance department the capability of transferring larger volumes of material to job sites. It was decided to purchase a new Truck and Transfer Set as an addition to the fleet.

Accordingly, a Request for Quotation (RFQ) was developed and sent to suppliers. Four (4) quotations were received by/open on August 30, 2016, and a summary of the results is attached hereto.

Staff has reviewed the quotations for accuracy and is making the recommendation to award the contract to NorCal Kenworth in the amount of \$211,524.80 for the purchase of a new, unused, current production model Truck and Transfer Set.

The recommended quotation is second in cost after the International truck. The quotation for the International truck had many exceptions and they could not provide the vehicle to meet NID's specifications. This Kenworth truck meets the NID specifications.

**BUDGETARY IMPACT:**

The cost for this equipment is within the budget for heavy equipment in the 2016 Maintenance budget.

Attachment ( 1 ): RFQ Inquiry No. 884 Summary Sheet
